

## **High School Transportation**

### **Transportation Fee**

We would like to again offer transportation for students in grades 9 and 10 for a fee of \$250 per student for the year. Interested parents must commit to a full year fee of bus ridership. There are no partial transportation use options available within the fee structure. Students attending grade 11 next year may submit a transportation request form, however the request is dependent upon ridership response and availability.

### **Morning Transportation Systems**

In the morning, all students in grades 7, 8, 9, and 10 ride to school together on existing bus routes. High school and middle school students are dropped directly at their respective schools.

### **Afternoon Transportation**

In the afternoon, high school students leave in a separate bus at the end of the school day. Bus routes will be developed based upon participation.

### **Minimum Ridership**

A minimum number of seventy (70) students is required to make this program operational. We must have a definite commitment with full payment so that we can verify that we have the minimum number of students participating and therefore can provide this service.

### **Payment of Fees**

Please complete the information data sheet on the bottom of this sheet. Send completed form along with a check for \$250 made payable to Hanover Schools and mail to: Hanover Schools, 188 Broadway, Hanover, MA 02339. This check must be received no later than August 12, 2005. In the event that there are an insufficient number of responses, all checks will be returned.
